## High-Performance Reinforcement Products

Headed Reinforcement Corporation is a manufacturer of high-performance reinforcement products for structural integrity and constructability and has been providing headed reinforcing bars since 1985! HRC's high-performance T-Headed Bars, Mechanical Splices and other related products are consistently specified for use on projects with the most demanding applications such as seismic, impact and blast resistant loading conditions. The Ultimate Performance of HRC products should be a standard requirement in your design and you can rely on them to provide you with advantages in structural performance, installation savings and benefits in construction progress and economy.
